

The Standard in Retail Cash Automation

At Hyosung, we leverage our expertise in cash recycling technology to enhance in-store cash management and security. The Cajera CR-H is a secure, fast and compatible cash recycler designed to drive efficient cash storage. The Cajera CR-H's modular design and high capacity cassettes drive Hyosung's industry-leading availability and serviceability.

Features

Innovative Cash Handling

Our external transit cassette dramatically reduces cash exposure and is interchangeable with other Hyosung products. Store personnel can load or remove cash from this cash recycler without opening the safe to securely move cash within the store.

Self-Audit Capabilities

Automatically track and record all bills during transactions. Self-audit drastically cuts down on end of day settlements to dramatically improve cash handling efficiency.

Fast Cash Counting

With a market leading speed of 12 notes per second for both deposits and withdrawals, the Cajera CR-H provides both accurate and fast cash handling so staff spend less time counting cash and more time building customer relationships.

Superior Storage Capacity

This retail cash recycler boasts a surprisingly large cash storage, capable of housing up to 14,000 notes*. All recycling cassettes can be configured to differing denominations to match any store's cash needs.

* Subject to note quality and other variables

Specifications

Dimensions

- Height: 1,221mm (48.1") with monitor
1,107.9mm (43.6") without monitor
920mm (36.2") under counter
- Width: 428mm (16.9")
- Depth: 1,003.4mm (39.5")
- Weight: 440kg (970 lbs)

Environmental Conditions

- Temperature: 5°C - 40°C (41°F - 104°F)
- Humidity: 25% - 85%

System Platform

- Microsoft Windows® 10

Customer Interface

- 7" Touchscreen (15" optional)
- Display unit status, note counting, and guidance messages
- Error and jamming point display
